DIRECTORY SEARCH

Search a full listing of primary care physicians, specialists, hospitals, pharmacies and urgent care centers in your area.

Select your doctor using our online search at westernhealth.com/calpers.

At the time of enrollment, you will select a primary care physician (PCP) close to your home or work to allow reasonable access to care. Your PCP is responsible for coordinating your medical care. While your PCP will treat most of your health care needs, if he or she determines that you require specialty care, you will be referred to an appropriate provider. With WHA's **Advantage Referral** program, you have choices for specialists beyond the medical group of your selected PCP.

Use this step-by-step guide to help deliver the results you are looking for.

1. Choose the type of provider you are looking for:

- Primary Care Physician (PCP) — choose from: Family Medicine; General Practice; Internal Medicine; Obstetrics/Gynecology; and Pediatrics.
- Specialist — examples include: Allergy; Cardiology; Dermatology; Internal Medicine; Oncology; and Podiatry.
- Facility — examples include: Hospitals/Emergency Rooms; Pharmacies; Laboratories; and Urgent Care Centers.

2. Use optional search filters:

- Select the type of PCP, specialist or facility from the drop-down menu.
- You can enter a provider's last name or specific facility name and click submit.

3. Navigate search results:

- To get additional details about a provider, click on their address.
- From the map view, click the red marker to get details about the provider.
- To continue filtering your search results, choose the filter results option located at the top of your search results.

4. Select advanced filters to define your search:

From the filter results menu, narrow down your search results by:

- Provider type
- Specialty
- Panel status
- Gender
- Effective date
- Languages spoken
- Medical group/Hospital affiliation

5. Capture your search results:

Once you've completed your search, simply click print results to generate a downloadable and printable PDF.

we're here for you

It goes without saying that a health plan should be there when you need it. At Western Health Advantage, we trust doctors to decide the best health care path for patients. We don't second guess or get in the way of the decisions you make with your doctor, as traditional health insurance companies can do. For us, it's personal—so we try to go beyond being there when you are sick, to being there to help you stay healthy. We support whole-person health, access to wellness classes, mental health resources and much more. It's just another way we balance an affordable health plan with quality health care.
