

INFERTILITY BENEFIT

COPAYMENT SUMMARY

Infertility Services

Covered Infertility services generally include consultations, examinations, diagnostic services whether performed in a physician's office or in a hospital or other facility, and medications. All covered Infertility services, including the diagnostic work-up and testing to establish a cause of "Infertility," require a 50% copayment, which is based on WHA's contracted charges. All covered Infertility services must receive prior authorization and are subject to the exclusions and limitations set forth in this Copayment Summary.

"Infertility" is defined as a condition of being infertile. A member is considered infertile if there is a presence of a demonstrated condition recognized by a licensed physician and surgeon as a cause of infertility, or the member is unable to conceive a pregnancy or to carry a pregnancy to a live birth after one (1) year of regular unprotected intercourse, or if the female partner is over age 35 years, after 6 months of regular unprotected intercourse. A member not having regular unprotected intercourse may be considered infertile if conception does not occur after at least 12 cycles of supervised artificial/donor insemination (6 cycles for women 35 years or older).
