

Why choose WHA? **We check all of the boxes.**

When it comes to choosing a health plan,
you will likely consider three things.

...First, your network of doctors and hospitals. That's where you will access care when you need it. We have more than 3,000 doctors and specialists to choose from and 15 hospitals you know and trust.

...Second, know your essential plan benefits. This is your preventive care plus a wide range of benefits included in WHA plans, such as hospitalization, mental health services, and prescription drug coverage.

...And finally, value-added benefits you will appreciate. Our plans include services to help you manage long-term health conditions, and innovative wellness programs that address nutrition, physical fitness and more, to help you (and your family) reduce health risks and maintain a healthy lifestyle.

benefit comparison notes

- ¹ Medical or prescription services may be subject to a deductible. The member must pay for these services when services are rendered until the deductible is met in that calendar year. Charges under the deductible are based on WHA's contracted rates with the provider of service.
- ² The annual out-of-pocket maximum is the total amount that the member must pay for certain services in a calendar year.
- ³ Generally, all non-emergency care must be accessed through your Primary Care Physician (PCP) within WHA's provider network. Obstetrical and gynecological services may be obtained directly without a PCP referral.
- ⁴ There may be an office visit copay if the primary purpose of a visit is not preventive or other services are provided.
- ⁵ With the exception of pediatric vision exams, copayments for vision and hearing examinations do not contribute to the out-of-pocket maximum.
- ⁶ See Copayment Summary for applicable prosthetic/orthotic device copayment amount.
- ⁷ Acupuncture and chiropractic services provided through Landmark Healthplan of California, Inc. Copayments for chiropractic services, if applicable, do not contribute to the medical OOP maximum.
- ⁸ Percentage copayment amounts are based on WHA's contracted rates with the provider of service.

This benefit comparison is intended to be used as a summary only. The applicable Copayment Summaries and Combined Evidence of Coverage and Disclosure Form (EOC/DF) should be consulted for a detailed description of coverage benefits and limitations.

Applicants have a right to review the EOC/DF prior to enrollment. Download/print from the website or call 888.499.3198.

Choosing a Doctor

Search for doctors and facilities by using our online provider search at mywha.org/directory. Upon enrollment, members must select a primary care physician (PCP) close to home or work to allow reasonable access to care. A member's PCP is responsible for coordinating medical care. PCPs can treat most health care needs, but should a PCP determine that specialty care is needed, the member will be referred to an appropriate clinical provider. With WHA, you have access to specialists outside of your PCP's medical group with WHA's Advantage Referral program. Visit mywha.org/referral to learn more about referrals.

PRESCRIPTION A

COPAYMENT SUMMARY

Western Health Advantage shall cover Prescription medications at Participating Pharmacies, prescribed in connection with a covered service and subject to conditions, limitations and exclusions stated in the Combined Evidence of Coverage and Disclosure Form (EOC/DF) located on the MyWHA Plan toolbar at mywha.org.

Medications on a member's **three-tier prescription plan** are categorized as follows in WHA's **Preferred Drug List (PDL)**:

- Tier 1 – Preferred generic and certain preferred brand name medication
- Tier 2 – Preferred brand name and certain non-preferred generic medication*
- Tier 3 – Non-preferred (generic or brand) medication*

The PDL is a listing of medications developed by WHA's Pharmacy and Therapeutics Committee as drugs of choice in their respective tiers. Drugs are evaluated regularly by the committee to ensure rational and cost-effective use of pharmaceutical agents. The committee reviews all medications for their efficacy, quality, safety, similar alternatives and cost in determining their inclusion on the PDL.

Please note that a drug's presence on the WHA PDL does not guarantee that the member's physician will prescribe the drug. There are a small number of drugs, regardless of tier, that may require prior authorization to ensure appropriate use based on criteria set by the committee.

Members may request a copy of the PDL by calling WHA Member Services or view the document online at mywha.org/pharmacy.

- Covered Prescription medications dispensed by a non-Participating Pharmacy outside of WHA's service area for urgent or emergency care only (the receipt may be submitted to WHA for reimbursement).
- Compounded Prescriptions for which there is no FDA-approved alternative and which contain at least one Prescription ingredient.
- Insulin, insulin syringes with needles, glucose test strips and tablets.
- Oral contraceptives and diaphragms.

Prescription copayments contribute to the medical annual out-of-pocket maximum unless copayment is for the treatment of Infertility.

*Regardless of medical necessity or generic availability, the member will be responsible for the applicable copayment when a Tier 2 or Tier 3 medication is dispensed. If a Tier 1 medication is available and the member elects to receive a Tier 2 or Tier 3 medication without medical indication from the prescribing physician, the member will be responsible for the difference in cost between the Tier 1 and the purchased medication in addition to the Tier 1 copayment. The amount paid for the difference in cost does not contribute to the medical out-of-pocket maximum.

**Percentage copayments are based upon WHA's contracted rates with the provider of service.

BUILT-IN HEALTH AND WELLNESS SUPPORT

Here are just a few of the value-added benefits you get when choosing Western Health Advantage for your health coverage.

- **Virta Health** is a telehealth program that reverses type 2 diabetes by helping participants lower blood sugar and A1C, reduce or eliminate diabetes medications, and lose weight. We have hundreds of members in the program and already seeing great results. The coaching, services, and supplies, which is a value estimated at \$3,000, are included at no added cost when you choose a WHA health plan.
- **Livongo® for Hypertension** provides advanced tools to help manage high blood pressure, such as a connected blood pressure monitor sent directly to you, real-time advice on your readings, and one-on-one coaching and support. Those who have been diagnosed with hypertension (high blood pressure) may enroll in this program at no added cost with a WHA health plan.
- **Nutritional counseling** is now offered by WHA, one of the first health plans in our area to offer **support for weight management** issues. Whether dealing with issues of obesity, eating disorders, or needed weight gain, you simply talk to your doctor to get a referral to a nutritionist for visits. You'll have the same costs that you would have for a primary care office visit.
- **Kaia Health** for back, neck, and knee pain is an innovative digital physical therapy app and coaching program. This is ideal for those who can't always get to an in-person therapy or travel to appointments, which often get in the way of getting the care you need. Kaia's computer vision technology features real-time automated exercise feedback, function assessment, and gamified warm-ups for virtual therapy that is accessible anytime or anywhere.
- **MyWHA Wellness programs** offer ways to keep fit, eat healthy and save money too. Starting with health club discounts, instructor-led classes like WHA's own **CommunityFIT** sessions, which are still virtual but hopefully, look for in-person classes coming soon. And finally, **ChooseHealthy™**, where you get discounts from 10 to 50% off health-related national brand products like Fitbit or SKECHERS, all designed to encourage and support you in your wellness journey.
